

Oxidative Stress
Eicosanoid Metabolism
Vascular Biology
Xenobiotic Metabolism
Signal Transduction

Oxford's research and development activities are broadly targeted to oxidative stress and chronic inflammation – two underlying and interacting conditions that contribute significantly to many diseases including :

- cancer
- cardiovascular diseases
- neurodegenerative diseases
- autoimmune diseases

KRISHGEN BioSystems

Oxford Biomedical Research
Superior Science, Reliable Results.

Eicosanoid Metabolism

Leukotriene B4 EIA Kit
Leukotriene C4 EIA Kit
Leukotriene C4/D4/E4 EIA Kit
Lipoxin A4 EIA Kit
15-Epi-Lipoxin A4 EIA Kit

Prostaglandins

PGE2 EIA Kit
PGE2 Monoclonal EIA Kit
PGF2-alpha EIA Kit
6-Keto-PGF1-alpha EIA Kit
11-beta PGF2-alpha EIA Kit
Thromboxane B2 EIA Kit
11-Dehydrothromboxane B2 EIA Kit

Lipoxins

Phospholipase A2

Phospholipase A3

Prostacyclin Synthase

Prostaglandins

Inflammation Biomarkers

Histamine EIA Kit
13,14-Dihydro-15-Keto-PGF2-alpha EIA Kit

Oxidized Lipid Quantitation

Related Products

Ram Seminal Vesicles
Microsomes, Ram Seminal Vesicles

Oxidative Stress

Antioxidant Measurement

Glutathione Reductase Assay Kit
Cellular Glutathione Peroxidase Assay Kit
Glutathione (GSH) Assay Kit
GSH/GSSG Assay
Total Glutathione Assay Kit
GSH/GSSG Assay
Total Antioxidant Power Kit (Replaces TA01)
HORAC Assay

Biomarker Enrichment

Cellular Responses to ROS/NOS

Grp 75 Standard

Enzymes in RO Metabolism

Human Plasma Lactoferrin Assay Kit
Human Myeloperoxidase Assay Kit
Catalase Assay Kit
Myeloperoxidase
Human Myeloperoxidase Assay Kit

Isoprostane Quantification

Urinary Isoprostane EIA Kit
Isoprostane EIA Kit

Oxidative DNA Damage

8-OHdG
DNA Damage Assay Kit
Anti-M1DG MoAB.
Oxidized Lipid Quantitation
9 (+) - HODE EIA Kit
LPO Microplate Based Assay Kit

Oxford Biomedical Research is committed to providing biomedical researchers the most advanced, highest quality reagents available for the studies of oxidative stress and inflammation and their roles in xenobiotic metabolism and the development of chronic diseases.
