

Getting the most from your Cell Culture Research Work

Our range of cell culture products -

Primary cells

Human Blood &
Stem Cells

Mycoplasma
Detection Kits

Reagents &
Supplements

Fetal Bovine
Serum

**LAST
QUARTER
PROMOTIONAL
OFFER !!!**

Now receive a
Rs100/- Café Coffee
Day voucher
(usable at all Café
Coffee
Day outlets
across India) for
every 500ml bottle
of FBS
ordered.

*This promotional
offer is valid for the
period 1st Jan
2011 to 31st Mar 2011*

Reagents & Supplements for Cell Culture

PromoCell offers a broad range of reagents and supplements for cell culture. This includes enzyme mixtures for tissue and cell dissociation, buffers for daily cell culture work, antibiotics and antimycotics in different concentrations, components to supplement various culture media, and reagents needed for cell assays. All of these are intensively tested and meet our stringent quality criteria.

DETACHMENT REAGENTS

Detach Kit
Detach Kit 2
Accutase-Solution
Trypsin Solutions
Trypsin Neutralizing Solution

BUFFERS & SALT SOLUTIONS

Dulbecco's Phosphate Buffered Saline
Hanks' Balanced Salt Solutions
Endotoxin-free Buffer and Water
Other Solutions

SUPPLEMENTS

Growth Supplements
Amino Acid Solutions
Vitamin & Trace Element Solutions
Extracellular Matrix Proteins

Accutase-Solution

Accutase is an alternative cell detachment solution to trypsin and can also be used for tissue dissociation. It was developed for very gentle and effective detachment of adherent cells. The well balanced combination of proteolytic and collagenolytic activities ensures that surface proteins and epitopes stay entirely intact. Accutase is therefore perfectly suited for applications, which require an unchanged cell surface.
