

Details of Factor IIa and Factor Xa Assay Kit In Terms of Concentrations and Composition

Factor IIa Assay Kit

Concentration:

As per EP Guidelines

Components -

	5 Thrombin
1. Human Thrombin Reagent	Units/ml
2. Human AntiThrombin Reagent	0.5 AT-III Units/ml
3. Chromogenic Substrate	0.5mM

Factor Xa Assay Kit

Concentration:

As per EP Guidelines

Components -

1. Bovine Factor Xa Reagent	3 nkat Units/ml
2. Human AntiThrombin Reagent	1 AT-III Units/ml
3. Chromogenic Substrate	0.5mM
